Tub & Tile Cleaner

High Foaming Tile & Restroom Surface Cleaner

An outstanding product which provides superior cleaning of all tile and restroom surfaces. Formulated with Acid Replacement Technology (A.R.T.), which combines superior cleaning performance while being safer to use. Excellent for sinks, tubs, countertops, backsplashes, faucets, metal fixtures, shower heads and controls, shower walls and floors, shower curtains, glass surrounds, dividers, toilets and urinals, tubs, pools, whirlpools and surrounding decks, and more. Contains a powerful, synergistic blend of surfactants, solvents and acid replacement components for outstanding cleaning results. Dissolves soap scum, mildew, hard water mineral deposits, oil, grease and uric salts. Brightens grout lines and lifts out embedded dirt and grime. Will not dull or etch fixtures made of polished chrome, brass or other metals. Safe on glass surfaces, marble, porcelain, and plastic. Lemon fresh fragrance. Non-butyl formula. Highly concentrated for maximum use economy.

Directions for Use

Spray Cleaning: Dilute this product at a concentration of 2-4 ounces per gallon of warm water (64:1 - 32:1) into a properly labeled spray bottle. Spray solution onto surface to be cleaned. Avoid breathing mist or vapors. Wipe with a soft cloth or sponge, then allow several minutes contact time to penetrate soils. Rinse with clean water. For shower areas or other surfaces with heavy buildup of scale and soap scum (including glass surrounds), dilute at a concentration of 8-32 ounces per gallon of warm water (16:1 - 4:1). Apply solution liberally with a hand-held or garden-type sprayer. Scrub with a nylon brush, allow 3-5 minutes contact time, then rinse well with clean water.

Mop & Bucket Cleaning: Sweep floor areas to be cleaned. Dilute at 2-4 ounces per gallon of warm water (64:1 - 32:1) into mop bucket. Apply solution with a clean mop, then scrub with a deck brush, scrub brush or mop. Allow solution several minutes to penetrate and dissolve soils. Rinse away solution with clean water, using a mop, sponge or rag to absorb excess liquid. Allow to air dry. For badly soiled tile or grout lines, apply product at full strength or diluted up to 4:1 with warm water. Agitate with a mop, scrub brush or deck brush, allow 3-5 minutes for detergent to dissolve soils, then rinse completely with clean water. Repeat as necessary.

Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's may be downloaded from www.crown-chem.com.

- ❖ **Cleans Better and Safer with Acid Replacement Technology**
- ❖ **Attacks and Dissolves Lime Scale and Soap Scum**
- ❖ **Highly Concentrated Formula for Economical Use Cost**
- ❖ **Non-Ammoniated • Fast Drying • Fresh Citrus Scent**

Technical Specifications

Appearance	Green Liquid
Odor	Lemon Fresh
pH (1% solution, 22°C)	<5.0
Foaming	High
Flash Point	None
Density (lbs/gal, 22°C)	9.00 ±0.1
Stability Range	40-100°F
Free Alkalinity (as Na ₂ O)	None
Solubility (in H ₂ O, 22°C)	100%
Phosphate Content (as P)	None

Product Number

CC0264
CC0241
CC0225

Packaging

4x64 oz. case*
4x1 gal. case
2x2½ gal. case
